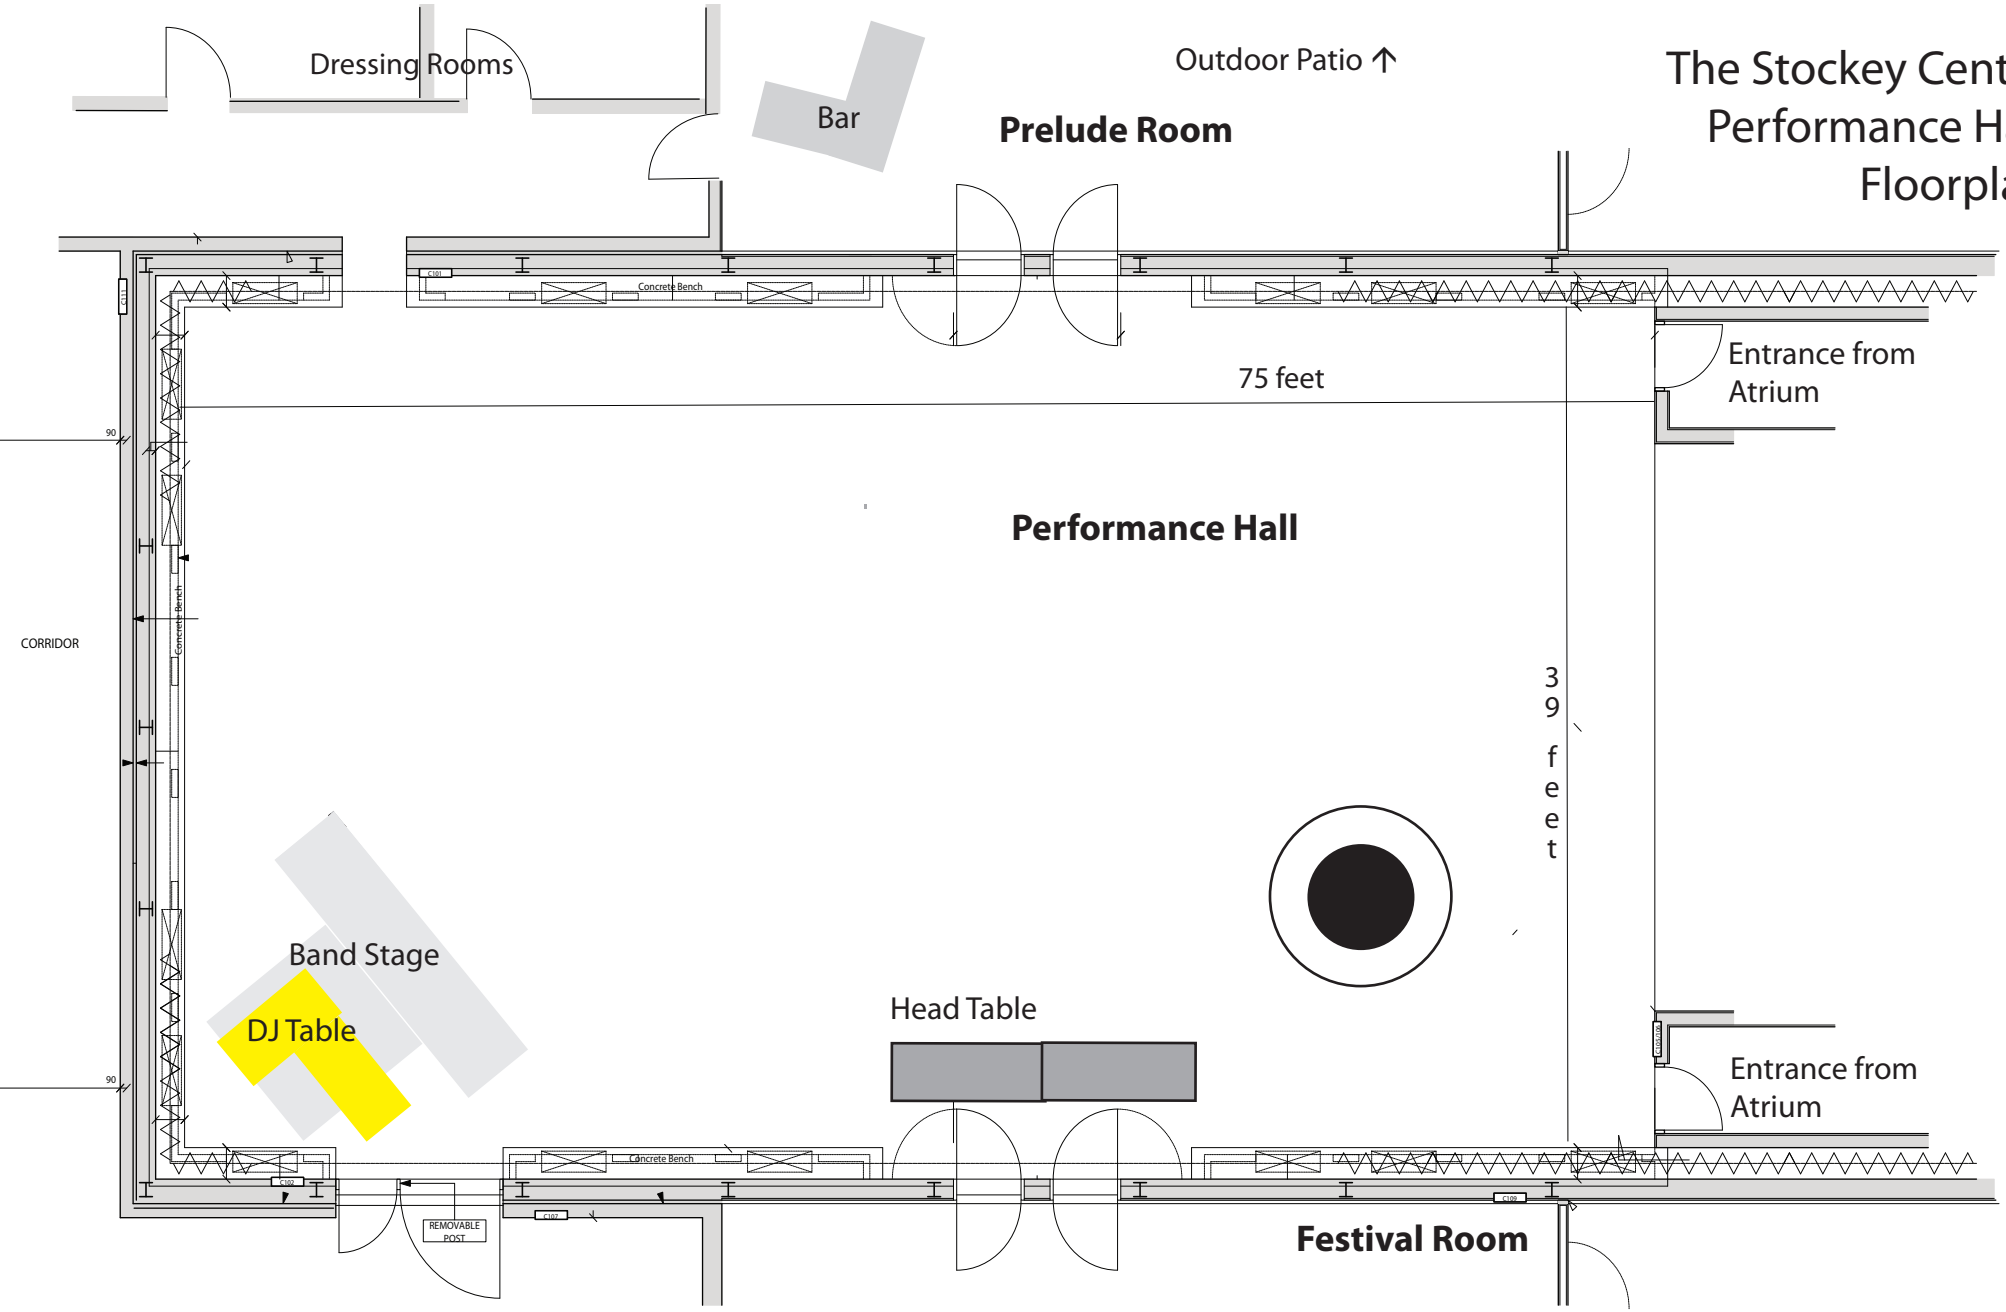
The Stockey Centre Performance Hall Floorplan



We have five 8 foot rectangular tables and seven 6 foot rectangular tables. The 8 foot and 6 foot tables are slightly different heights. If using these ina seating plan, you will need to allow 2 linear feet per person seated.

We have 25 round tables. They are 5 feet in diameter, and they comfortably seat 8 people. When placing them on a seating plan, allow 6 feet between each table. In this drawing, the tables are the black circles, and the outer circle represents the space you need to leave for chairs and walking around in the room.
